Your Mission. Our Passion.

Exceptional delivery is the very core of STEERBRIDGE. It pushes us to be better in all that we do. We deliver, we win new business, we grow our team, and we expand into new areas with new customers.

Rob Schroder | CEO

BUSINESS DOMAINS

Aviation

STEERBRIDGE leverages cutting-edge technologies to provide innovative solutions for aviation challenges. Our team of experts collaborate with partners like the Department of Defense to deliver advanced IT solutions, enhancing operational efficiency and safety in the aviation sector.

Construction and Facility Management

As a CVE-Verified Service-Disabled Veteran-Owned Small Business, STEERBRIDGE excels in construction and facilities management. We combine our expertise with strategic partnerships to offer comprehensive solutions, ensuring efficient project delivery and sustainable facility operations.

Professional Services

STEERBRIDGE delivers exceptional professional services to the U.S. Government and private sector. Our dedicated team of highly skilled professionals advances client missions through tailored solutions and a culture of innovation. We leverage robust recruitment capabilities to attract top talent, particularly Veteran expertise. Our skilled recruiters excel at matching the right professionals to each project's unique requirements, ensuring mission success.

Global Sustainment

STEERBRIDGE drives digital transformation in government and military sectors, empowering agencies to meet global sustainment challenges. We offer agile, precise, and secure solutions that support long-term operational success and sustainability across various environments.

PROVEN CAPABILITIES

Modernization of VBA Processes

STEERBRIDGE transformed the GI Bill benefits process, reducing review time from 30 days to 30 seconds. Our AWS-powered automation streamlined data ingestion, validation, and decision-making, improving accuracy and accelerating Veterans' access to education. By eliminating bottlenecks and reducing workload, we delivered scalable, real-time solutions that drove efficiency and impact in mission-critical environments.

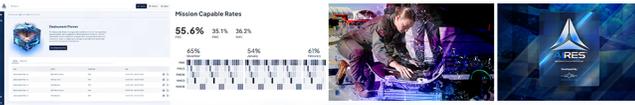

VA Claims Modernization

STEERBRIDGE as prime contractor, is modernizing VA disability claims and MDE operations with secure cloud automation, AI/NLP/ML, and robust analytics to attack a 229,000-claim backlog. A rapidly cleared, VA-trained workforce enables AI-driven evidence intake, faster decisions, and 72-hour ACE DBQ delivery, meeting 96% accuracy, HIPAA compliance, and VA API-based data integration. Data-source-agnostic pipelines securely ingest, normalize, and process records at scale in Amazon S3.

Predictive Analysis for F-35 Maintenance

STEERBRIDGE optimized F-35B maintenance by integrating legacy data into a cloud-native AI/ML-driven solution. Predictive analytics reduced unscheduled maintenance, optimized deployment planning, and cut shipboard parts inventory by 60-70%, reducing resupply needs by 30%. This system enhanced mission readiness, minimized logistical delays, and improved airworthiness—demonstrating our capabilities in AI integration, predictive risk assessment, and operational sustainability.

Construction and Facilities Management

STEERBRIDGE demonstrated exceptional construction management capabilities in VA healthcare facilities, delivering EHRM IT infrastructure upgrades across 20 locations. Our team provided experienced on-site Construction Administrators, ensuring quality control, cost estimation, and effective project oversight. This demonstrates STEERBRIDGE's capability to deliver high-quality construction management services in complex healthcare environments.

Recruitment Partnerships

At STEERBRIDGE, our commitment to Veterans extends beyond our walls. We are proud to partner with incredible Veteran-owned and Veteran-focused organizations including Hiring Our Heroes, DoD Skillbridge, Military Spouse Employment Program, and The Honor Foundation.
